

Hazardous Warning Diamonds and Signs

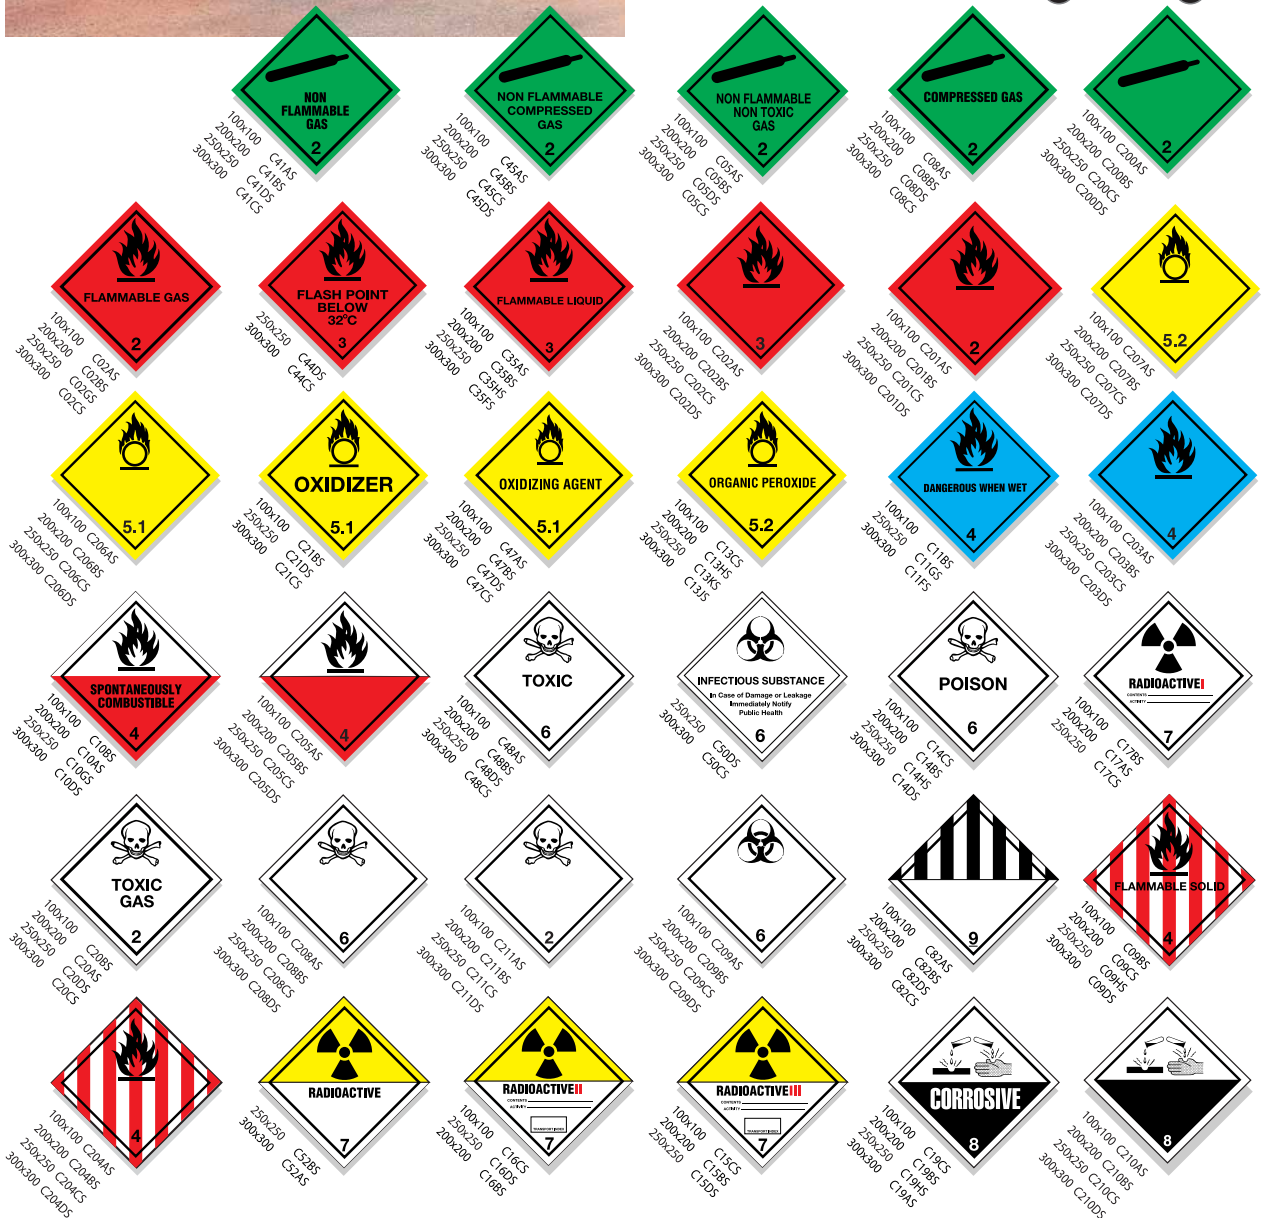

Primary Hazard Warning Diamonds

Primary hazard warning diamonds have a hazard class number at the base of the diamond. This denotes the substances primary hazard.

Internationally recognised symbols for packages, road tankers and freight containers.

Labels are printed on Self-Adhesive Vinyl and all diamonds, conform to BS 5609. This British Standard is a specification for marine use, whereby the label (both material and ink) will withstand 3 months continuous immersion in sea water.

Size mm	Quantity 10-99	Quantity 100-499	Quantity 500-999	Quantity 1000 Plus
